

## SONICOR BC SERIES INDUSTRIAL ULTRASONIC CLEANING SYSTEMS

### ***Self-Contained, Full Function, Industrial Ultrasonic Cleaning Systems***

Since 1966, Sonicor industrial tank/generator ultrasonic cleaning systems have been the benchmark for performance and reliability. The Sonicor BC series combines the performance and state-of-the-art technology of our "**BandScanner**" sweep-frequency generator, with the heavy-duty construction and rugged reliability of Sonicor industrial ultrasonic cleaning tanks, in a self-contained tabletop cleaning system.

These high performance heavy-duty systems are offered in four sizes, from 5 gallons to 22 gallons. Each model is completely self-contained in a durable, all-stainless cabinet, with an easy-access, front mounted control panel. Each BC model is equipped with a tank temperature control system, and an ultrasonic cycle timer. Sonicor's all-digital control system is offered as a no-cost option.

#### ***Standard Features:***

- All stainless tank fabrication
- Drain valve
- Ultrasonic intensity control
- Variable pulse/degas control
- Stainless lift-off tank cover
- Cabinet handles
- Cleaning cycle timer
- Process temperature control system

#### ***Available Options:***

- Digital control system (no-cost option)
- Analog control system (no cost option)
- 27 KHz sweep frequency (replaces std 40KHz – available on 10 gal. & 22 gal. systems only)
- Stainless steel parts basket
